

Bibliothèque

Hebdo n°3

Semaine du 16 au 20 janvier 2012

(the) American Naturalist 2011 178(6)

p729-745 Sexual selection and conflict as engines of ecological diversification. R. Bonduriansky

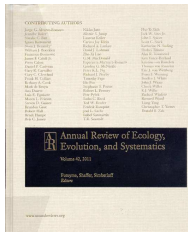

p755-773 Using time series analysis to characterize evolutionary and plastic responses to environmental change: a case study of a shift toward earlier migration date in sockeye salmon. L.G. Crozier, M.D. Scheuerell & R.W. Zabel

Animal Biology 2011 61(4)

p413-426 Respiration of *Artemia franciscana* cultured under different salinities. M.M. El-Gamal

p469-484 Microsatellites reveal weak genetic differentiation between *Rutilus frisii kutum* (Kamenskii, 1901) populations south of the Caspian Sea. M. Rezaei, A. Shabani, B. Shabanpour & H. Kashiri

Annual Review of Ecology, Evolution and Systematics 2011 vol.42

p155-180 Physiological correlates of geographic range in animals. F. Bozinovic, P. Calosi & J.I. Spicer

p267-288 Long-term ecological records and their relevance to climate change predictions for a warmer world. K.J. Willis & G.M. MacDonald

p313-334 Climate relicts: past, present and future. A. Hampe & A.S. Jump

p381-410 Integrated land-sea conservation planning: the missing links. J.G. Álvarez-Romero et al.

p411-440 On the use of stable isotopes in trophic ecology. W.J. Boecklen, C.T. Yarnes, B.A. Cook & A.C. James

p441-464 Phylogenetic methods in biogeography. F. Ronquist & I. Sanmartín

p465-488 Toward an era of restoration in ecology: successes, failures, and opportunities ahead. K.N. Suding

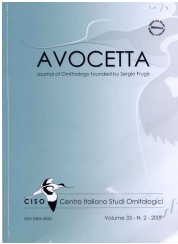

Ardeola 2011 58(2)

p343-364 How many common breeding birds are there in Spain? A comparison of census methods and national population size estimates. E. Murgui Pérez

p365-370 Population estimates: towards standardised protocols as a basis for comparability. L.I. Brotons & S. Herrando

p371-388 Data, preconceived notions and methods: the case of population sizes of common birds in Spain. L.M. Carrascal

Avocetta 2009 33(2)

p19-27 Developing a butterfly indicator to assess changes in Europe's biodiversity. T. Brereton, C. van Swaay & A. van Strien

p29-34 20-year changes in the distribution patterns of Italian breeding birds. G. Tellini Florenzano, T. Campedelli, L. Buvoli, G. Londi & L. Mini

p59-69 Monitoring breeding raptor populations. A proposed methodology using respectable methods and GIS. K.K. Poirazidis, S. Schindler, C. Ruiz & C. Scandolara

p137-142 Indirectly accounting for uneven sampling effort to estimate population sizes from atlas data. N. Titeux, A. Derouaux, J.P. Jacob, T. Kinet & J.Y. Paquet

p143-147 Choosing a totally repeated or partially-repeated sampling strategy to assess both, population changes and distribution: the case of Italian breeding birds. G. Tellini, L. Fornasari, E. De Carli & G. La Gioia

p149-156 Indicators and conservation policy : the German sustainable indicator for species diversity as an example. R. Dröschmeister & U. Sukopp

p171-183 The migration of waders (Aves, Charadrii) in Greece. S. Kazantzidis, D. Vangeluwe, G. Handrinos, F. Pergantis, I. Schogolev & Y. Roussopoulos

p199-204 Aspects of breeding biology of cattle egret *Bubulcus ibis* in a Grosseto province colony (Tuscany, central Italy). M. Dragonetti & P. P. Giovacchini

p205-210 A widespread gull population in a complex wetland: habitat specific methods to census breeding pairs. C. Soldatini, Y.V. Albores-Barajas, D. Menardi & P. Torricelli

Avocetta 2010 34(1)

p21-28 Variation in diet composition of wintering waterfowl among Greek wetlands. I. Karmiris, S. Kazantzidis & T. Papachristou

Avocetta 2010 34(2)

p5-224 Distribuzione geografica e ambientale degli uccelli comuni nidificanti in Italia, 2000-2004 (dati del progetto MITO2000). L. Fornasari et al.

Behavioral Ecology 2012 23(1)

p58-68 Migration strategy of a flight generalist, the lesser black-backed gull *Glarus fuscus*. R.H.G. Klaassen, B.J. Ens, J. Shamoun-Baranes, K.M. Exo & F. Bairlein

(le) Courrier de la Nature 2011 n°264

p4-52 Spécial « Continuités écologiques »

p8-15 La trame verte et bleue. F. Allag-Dhuisme

p16-19 Trame verte et bleue : quelques réflexions. M. Echaubard

p22-30 Impact des infrastructures humaines sur les continuités écologiques et les moyens mis en œuvre pour les minimiser. V. Vignon

p40-41 Limicoles côtiers – Migrateurs et connectivités sans frontières ! L'ornithologie, précurseur d'une écologie fonctionnelle et connective. E. Caillot, G. Quaintenne, P. Delaporte & P. Bocher

Ecography 2012 35(1)

Numéro libre en ligne: <http://onlinelibrary.wiley.com/doi/10.1111/more.2012.35.issue-1/issuetoc>

p1-3 The patterns and causes of elevational diversity gradients. N.J. Sanders & C. Rahbek

p4-8 Strengthening forecasts of climate change impacts with multi-model ensemble averaged projections using MAGICC/SENGEN 5.3. D.A. Fordham, T.M.L. Wigley, M.J. Watts & B.W. Brook

Ecology 2011 92(12)

p2316 Species composition and abundance of mammalian communities. K.M. Thibault, S.R. Supp, M. Giffin, E.P. White & S.K.M. Ernest

Journal of Fish Biology 2012 80(1)

Numéro libre en ligne: <http://onlinelibrary.wiley.com/doi/10.1111/jfb.2012.80.issue-1/issuetoc>

p61-85 Phylogeography of isolated freshwater three-spined stickleback *Gasterosteus aculeatus* populations in the Adriatic Sea basin. J. DeFaveri, L.N. Zanella, D. Mrakovčić & J. Merilä

p181-194 Individual genetic tagging for teleosts: an empirical validation and a guideline for ecologists. D. Andreou et al.

Mammal Review 2012 42(1)

Numéro libre en ligne: <http://onlinelibrary.wiley.com/doi/10.1111/mam.2012.42.issue-1/issuetoc>

p78-84 Set density as an estimator of population density in the European badger *Meles meles*. C. Lara-Romero, E. Virgós & E. Revilla

Nature 5 January 2012 481(7379)

p9-10 Fears over modified flu virus expose holes in oversight mechanisms. H. Ledford

p21-23 How to stop plagiarism. *Ten experts offer their prescriptions.* H. Garner et al.

p25 Keep standards high. The review process is never-ending in the digital age. J. Ravetz

p66-70 Changing Arctic Ocean freshwater pathways. J. Morison et al.

North American Journal of Fisheries Management 2011 31(5)

p782-812 Biology, status, and management of the Yellowstone cutthroat trout. R.E. Gresswell

p923-933 Accuracy of removal electrofishing estimates of trout abundance in Rocky Mountains streams. K.A. Meyer & B. High

p952-961 Relationships between electrofishing catch rate and adult trout abundance in Wisconsin streams. P.S. Bergman, M.J. Hansen & N.A. Nate

p986-993 Habitat-specific abundances of PIT-tagged juvenile salmonids using mobile antennas: a comparison with standard electrofishing techniques in a small stream. M.R. Sloat, P.F. Baker & F.K. Ligon

Science 23 December 2011 334(6063)

p1637-1638 Turkey's rich natural heritage under assault. Ç.H. Şekercioğlu et al.

p1703-1706 Global seabird response to forage fish depletion. One-third for the birds. P.M. Cury et al.

Wildlife Professional 2011 5(4)

p48-49 The link between zoo research and wildlife health. S.L. Deem

p70-72 Tools and technology social networks in wildlife management. B.A. Muter & H.A. Triezenberg

Wildlife Research 2011 38(7)

Special issue - Rodent biology and management. L. Hinds & G. Singleton

p617-625 The role of wild rodents in spread and transmission of *Coxiella burnetii* needs further elucidation.
B.G. Meerburg & C.B.E.M. Reusken
